

MINI SKID STEER
FORESTRY MULCHER
F2-S90 Variable Torque
35+hp

**FERNTREE
EQUIPMENT
& DISTRIBUTION**
YOUR QUALITY BRAND CONNECTION

Transform your mini skid steer into a brush and shrub eating power machine. Finally, the first fixed tooth mini skid steer attachment on the market to break through the limitations of your flail hammer mulcher. Built for units with a minimum of 34hp

Designed in Canada and build in Europe

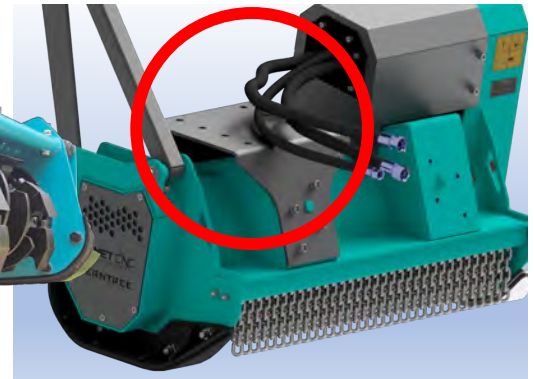

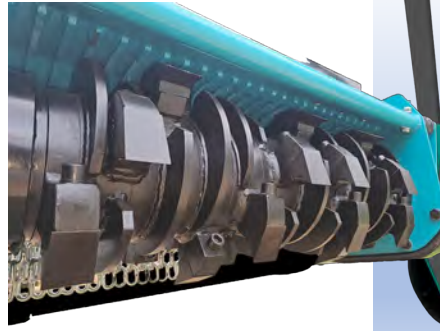

The VT (Variable Torque) piston engine improves mulcher efficiency by automatically increasing torque during demanding tasks, providing an extra power boost to prevent rotor stalling. This system ensures the mulcher consistently operates at the optimal torque level, delivering top performance while conserving fuel

Performance/Counter knife
Hardox Wear parts

Bite Limiter

Excavator mounting plate

Max operating height 45 inches above ground !!!

Bungee cord secured hoses

Bolted Stub Shaft

Standard Equipment

- Hydraulic Flat Face Coupler
- 22-45cc Variable Motor (VT)
- Carbide tooth
- Belt transmission
- Rear Chain Guard
- Adjustable Skids
- 3F Ferntree Multifunctional Valve (By-pass, anti-shock, oil flow diverter)
- Push Bar
- Bite Limiter / Depth Control Rotor
- Excavator base Plate for DUAL USE up to 8t carrier.

Technical Specification F2 - S 90 & 115
